

MedEdPORTAL® Call for Submissions: Opioids Education

MedEdPORTAL is a free, open-access publication that promotes educational scholarship and collaboration by facilitating the open exchange of peer-reviewed health education teaching and assessment resources.

Opioid abuse is a serious public health issue and drug overdose deaths are now the leading cause of injury death in the United States. Academic medicine is on the front-lines in our communities dealing with opioid abuse: Responding with new approaches to substance abuse, delivering pain management education, and leading efforts in this area to advance medical research and promote innovations in clinical care. www.aamc.org/opioids

MedEdPORTAL invites authors, owners and contributors to submit their works for publication consideration. Potential topics include, but are not limited to, the following educational approaches:

- *Alternative Pain Management Strategies*
- *Addiction Treatment Strategies*
- *Safe Opioid Prescribing*
- *Risk Assessment & Mitigation Strategies*
- *Equity of Pain Management Approaches*

All submissions must be considered stand-alone, complete teaching or learning modules that have been classroom tested and are ready for implementation by users at their own institutions. Each submission is scrutinized by editorial staff and independent peer reviewers using a standardized review instrument grounded in the tenets of educational scholarship, thus positioning MedEdPORTAL publications on par with scholarly works in support of faculty tenure and academic advancement decisions. Published authors receive a formal citation for their accepted publication to include in curriculum vitae and other reference formats.

For full submission guidelines to MedEdPORTAL, please visit www.mededportal.org/submit.

All submissions in these topics that successfully pass the peer review process will be published, formatted, and featured in MedEdPORTAL.
